

Syllabus

for course at first level

**Geology of Sweden
Sveriges geologi**

**7.5 Higher Education
Credits
7.5 ECTS credits**

Course code:	GG5014
Valid from:	Autumn 2019
Date of approval:	2009-10-19
Changed:	2011-10-10
Department	Department of Geological Sciences
Main field:	Earth Sciences
Specialisation:	GXX - First cycle, in-depth level of the course cannot be classified

Decision

This syllabus was established by the Faculty of Science at the Stockholm University 2009-10-19 and revised 2011-10-10. Technical revision of the Student Department 2019-04-16.

Prerequisites and special admittance requirements

Knowledge equivalent to 90 credits in Earth Sciences.

Course structure

Examination code	Name	Higher Education Credits
HELA	Geology of Sweden	7.5

Course content

Learning outcomes

Education

The teaching consists of seminars, exercises, and field trips. Participation in seminars, exercises and field trips is compulsory. If special reasons exist, the examiner may, after consultation with the relevant teacher, grant the student exemption from the obligation to participate in certain compulsory teaching.

Forms of examination

a. The course is examined through written assignments. b. Grading is done according to a seven-grade goal-related grading scale: A = Excellent B = Very good C = Good D = Satisfactory E = Sufficient Fx = Insufficient F = Completely insufficient. c. The course's grading criteria are awarded at the start of the course. d. To pass, a minimum grade of E and participation in all compulsory education is required. e. Students who fail in regular exams are entitled to undergo at least four additional exams as long as the course is given. Other compulsory course parts are also compared with tests. Students who have passed the examination may not undergo a re-examination for higher grades. Students who have failed the exam twice are entitled to request that another examiner be appointed for the next exam. The request for this shall be made to the Department Board. f. The possibility of completing the grade Fx up to an approved grade is not given on this course.

Interim

Students may request that examination be conducted in accordance with this syllabus even after it has ceased to apply, but not more than three times during a two-year period after the end of teaching on the course. The request for this shall be made to the Department Board.

Misc

The course is offered as an elective course within the Bachelor's program in Geology but can also be read as a free standing course.

Required reading

Course literature is determined by the Department Board and is then reported in an appendix to the syllabus.
