for course at advanced level

Information Security in Organisations
Informationssäkerhet i organisationer

**7.5 Higher Education
Credits**
7.5 ECTS credits

Course code:	ML471C
Valid from:	Spring 2016
Date of approval:	2015-10-26
Department	Department of Computer and Systems Sciences
Main field:	Computer and Systems Sciences
Specialisation:	A1F - Second cycle, has second-cycle course/s as entry requirements

Decision

This syllabus was approved by the Head of the Department 2015-10-26.

Prerequisites and special admittance requirements

7.5 ECTS Data Security fundamentals, e.g. ML470C Introduction to Information Security.

Course structure

Examination code	Name	Higher Education Credits
SORI	Information Security in Organisations, assignments	3.5
SORT	Information Security in Organisations, written exam	4

Course content

The course covers the conditions and procedures for information security management in organizations and provides the essential knowledge, skills and assessment abilities required to act as information security adviser and chief information security manager (CISO).

The course includes the following sub-areas: - Terminology - Policy and guidelines for information security - Methods for analysis of information security - Relevant goals, requirements, actors, activities and problems - Identification of protected information assets - Central processes for information security management - Marketing, information, awareness and education in information security in operations - Relevant standards and best practices - Overview of current research in the field.

Learning outcomes

After completing the course, the student should be able to:

- Describe the key objectives, requirements, actors, activities and problems related to the management of information security in organizations.
- Explain the commonly used best practices, processes, standards and methods of analysis and management of information security in organizations.
- Applying, in an independent and effective manner, central techniques for analysing information security in organizations.
- Know the meaning of key terms and concepts in the field of information security management.

Education

The teaching and learning activities in the course are: lectures and supervision sessions.

The language of instruction is English.

Forms of examination

- a. The course is examined through assignments and a written examination task.
- b. The final grading of the course is based on the following grading scale related to the learning outcomes of the course: A = Excellent, B = Very Good, C = Good, D = Satisfactory, E = Sufficient, Fx = Fail, F = Fail.
- c. The grading criteria are communicated to the students at the start of the course.
- d. In order to complete the whole course segment the student must obtain at least grade E in all course components/examinations.
- e. In addition the following regulations also apply:
 - Students who obtain grade Fx in a written examination task are allowed to complete a supplementary assignment in order to elevate the grade to E. The examiner informs the concerned students when the results of the written examination are published. The supplementary assignment has to be submitted within a given deadline and can only be utilized to elevate the grade of the actual examination task.
 - Students who obtained grade E in an examination task are not allowed to re-write the examination or resubmit the assignment in order to obtain a higher grade.
 - Students who have failed the same examination task twice are allowed to have another examiner appointed, unless there are special reasons to the contrary.

Interim

When a course is discontinued, or its contents are substantially altered, the following applies:

- Failed examination tasks are replaced with other similar examination tasks according to a specific plan.
- If no similar examination tasks can be provided, at least three examination opportunities per examination task should be offered during a period of at least three terms from the date of the decision. After this period, no examinations should be carried out on the course.

Limitations

This course may not be included in a degree together with a course, taken in Sweden or elsewhere, of identical or partially similar content.

Required reading

Information about course literature is available on the department's website - www.dsv.su.se - at least two months before the start of the course.
