The students' work will be evaluated after these events.

Learning outcomes

Upon completion of the course, students are expected to be able to:

- organise and manage curatorial and dramaturgical aspects of a cultural and scientific event;
- critically analyse and discuss different aspects of the event;
- evaluate and position themselves within the field of curating work as it relates to theatre/performing arts and research;
- critically reflect on the possibilities and limitations of research, as well as any response to its application in society.

Education

Instruction is given in the form of seminar discussions. The language of instruction is English, and attendance is mandatory. For more detailed information, please refer to the course description.

Forms of examination

Grades will be set according to a two-point scale related to the learning objectives of the course:

U = Fail

G = Pass

At least two examination opportunities should be offered during each course and semester. In addition, at least one opportunity to retake an examination should be given during a semester or year when the course is not provided. A student who has received a failing grade (U) twice by the same examiner is entitled to have another examiner appointed for the next examination, unless there are special reasons to the contrary. Such requests should be addressed to the department board. Students will be informed of the written grading criteria when the course starts.

Interim

If the course is discontinued, or its contents substantially altered, students have the right to be examined according to this syllabus once per semester for a period of three semesters (subject to the limitations described under Forms of examination in this syllabus). Such requests should be addressed to the department board.
