Forms of examination

a. The course is examined on the basis of two oral presentations.

The principles for weighting individual course assignments are described in the grading criteria.

For more detailed information, please refer to the course description. The course description will be made available at least one month before the course starts.

b) Grades will be set according to a seven point scale related to the learning objectives of the course:

A = Excellent

B = Very good

C = Good

D = Satisfactory

E = Adequate

Fx = Failed, some additional work required

F = Failed, a lot more work required

c) The student will be informed of the written grading criteria when the course starts.

d) In order to pass the course, students must receive a grade of E or higher on all examinations, complete all mandatory assignments and meet the attendance requirement of 80 percent.

Under special circumstances, the examiner may, after consulting with the coordinating teacher, grant the student an exemption from the obligation to participate in certain mandatory course elements. The student may then be assigned a compensatory assignment.

e) At least two examination opportunities should be offered for each course when it is given. At least one examination opportunity should be offered during an academic year when the course is not given.

A student who receives the grade E or higher may not retake the examination to attain a higher grade.

Students who receive the grade Fx or F twice by the same examiner are entitled to have another examiner appointed for the next examination, unless there are special reasons to the contrary. Such requests should be made to the board of the department.

f) The completion of a supplementary assignment in order to convert the grade Fx into a passing grade may be permitted if the student is close to meeting the criteria for a passing grade.
