Course structure

Examination code	Name	Higher Education Credits
S718	Insurance Law for Actuaries II	7.5

Course content

The study of the insurance movement law is centered on the question of what the purpose of the insurance area, organization of insurance compansies and what is expected of the leadership of insurance companies, linked to what responsibilities Sweden has as a member of EU. Public share insurance law rules are discusses. The law rules concerning insurance insurance instrumentality take a look at both the insurance factors and agents operations and specifically concern the responsibility distribution between insurance companies and the insurance instrumentality.

Learning outcomes

It is expected that the student after taking the course will be able to:
* describe insurance business law
* assign distribution of insurance
* read up on different activities of insurance company
* describe EU:s insurance law and assessment of insurance

Education

The education consists of lectures.

Forms of examination

a. Examination for the course is in the following manner: measurement of knowledge takes place through written examination.

b. Grading is carried out according to a 7-point scale related to learning objectives:
A = Excellent
B = Very Good
C = Good
D = Satisfactory
E = Sufficient
Fx = Fail
F = Fail

c. Grading criteria for the course will be distributed at the start of the course.

d. A minimum grade E is required to pass the course.

e. Students who fail to achieve a pass grade in an ordinary examination have the right to take at least further four examinations, as long as the course is given. The term "examination" here is used to denote also other compulsory elements of the course. Students who have achieved a pass grade on an examination may not retake this examination in order to attempt to achieve a higher grade. Students who have failed to reach a pass grade on two occasions have the right to request that a different teacher be appointed to set the grade of the course. A request for such appointment must be sent to the departmental board.

Interim
Students may request that the examination is carried out in accordance with this syllabus even after it has ceased to apply. This right is limited, however, to a maximum of three occasions during a two-year-period after the end of giving the course. A request for such examination must be sent to the departmental board.

Limitations
The course may not be included in a degree together with the course "Insurance Law for Actuaries" (MS 3230).

Misc
The course is given in cooperation with Juridicum, Department of Law.
The course is a component of the Master's Programme in Actuarial Mathematics, and it can also be taken as an individual course.

Required reading
Course literature is decided by the departmental board and is described in an appendix to the syllabus.
